Risk assessment involves analysing threats (or 'hazards') facing a community. It should ideally be used in all planning - since most communities face some kind of threat.

[http://www.communityplanning.net/methods/risk\\_assessment.php](http://www.communityplanning.net/methods/risk_assessment.php)

A Community Health Assessment (CHA) engages community members and local public health system partners to collect and analyze health-related data from many sources.
